

PLUG BOOTS

Plug boots Presentation

The RJ45 plug boots design incorporates a latch guard to protect the plug latch from snagging when pulling cords through pathways or cable managers.

Features and benefits

- Easy to use.
- Made of high density polyethylene (HDPE).
- Protect the plug latch from snagging when pulling cords.
- Colors available: green, gray, yellow, black, white.

GROUND SOCKET

Ground Socket Presentation

Ground-fault interrupter is an unintentional electrical path between a source of electrical current and a grounded surface. Electrical shock can occur if a person comes into contact with an energized part. GFCIs (ground-fault circuit-interrupters) can greatly reduce the risk of shock by immediately shutting off an electrical circuit when that circuit represents a shock hazard (a person comes in contact with a faulty appliance together with a grounded surface). They are characterized by their adaptability to diversification of architectural specification .

Features and benefits

- positive protection against electronic shock
- They will operate well because of overheating, and waterproof
- They will operate at their design speed

CABLE TESTER

Products Description

Design for the testing of the UTP and screened for the opens , shorts , reversals, mis-wiring and so on , this tester allows one person to quickly test and identify up to different hour runs from the one locations .

This ethernet cable tester quickly and easily checks for cable continuity, mis-wiring, open, short, straight-through or cross pinning.

Features and benefits

- For UTP/STP -4 & 2 pairs lan cable (10/100 Base-T) .
- For telephone line cable .
- Coaxial cable (BNC-BNC) 10 Base-2 .

Order Information

Part number	Description	Inner box	Carton
PBB01	Plug Boots	1000PCS	10000PCS
FSA09	Ground Socket	1PC	20PCS
FSF04	Ground Socket	1PC	20PCS
CSA01	Cable Tester	2PCS	40PCS
FSP09	AMP modular board	1PC	20PCS
FSP11	CommScope modular board	1PC	20PCS
FSP27	Blank Board	1PC	20PCS
